

Join us for a free screening of **Intelligent Lives**

Intelligent LIVES stars three pioneering young American adults with intellectual disabilities – Micah, Naieer, and Naomie – who challenge perceptions of intelligence as they navigate high school, college, and the workforce. The film challenges what it means to be intelligent, and points to a future in which people of all abilities can fully participate in higher education, meaningful employment, and intimate relationships.

We will have an open floor discussion afterwards.

Light refreshments will be served.

Opportunities to network with other professionals in the field.
