

Join us for a
Screening of
intelligent lives

Intelligent LIVES stars three pioneering young American adults with intellectual disabilities – Micah, Naieer, and Naomie – who challenge perceptions of intelligence as they navigate high school, college, and the workforce. The film challenges what it means to be intelligent, and points to a future in which people of all abilities can fully participate in higher education, meaningful employment, and intimate relationships.

Dan Habib, the filmmaker, will lead a discussion after the film.
